DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-27 are rejected under 35 U.S.C. 102(b) as being anticipated by McCrea, Jr.

The patent to McCrea discloses a playing card delivery shoe, Figs. 16 and 17, comprising an in-feed area 1604 for receiving a vertical first set of cards 93a. A first card mover 37a moves cards from the first set to a card staging area or buffer area 16a. A second card mover moves cards from the card staging area to a delivery area 1606, wherein cards removed from the staging area to the delivery shoe are moved in the same order by which cards were removed from the first set of cards and moved to the card staging area. A card reading sensor 1660, 1410b, 1640, 1642, 1636 read at least one element of information of card rank, card suit or card value of each card separately after each card has been removed from the area for receiving the first set of cards and before removal from the card delivery area, col. 15, line 66 to col. 16, line 11. Card information is present in a memory storage component GC and an external computer 20 for each shuffled set of cards.
